COMPANY OVERVIEW

Weigh Anchor is a Service-Disabled Veteran-Owned Small Business providing full-service **Project and Program Management Office (PMO)** delivery for construction and infrastructure programs. We design, stand up, and operate the management systems that make complex, multi-project portfolios run — from project controls and construction management through closeout and compliance. Our portfolio spans federal, tribal, local government, and private sector clients across 17 states and territories.

CORE SERVICES

Project & Program Management

- Project and program delivery — from single-site builds to multi-project portfolio management
- Project controls: cost management, schedule management, reporting
- Construction management and inspection services
- Closeout and compliance reporting

Business Process Engineering

- Custom construction project management dashboards
- Automated reporting and workflow design
- Process standardization across multi-project portfolios
- Tool building for project teams

Supplemental Expertise

- Staff augmentation for programs needing specific skill sets
- Embedded team members for ongoing engagements
- Healthcare and pharmaceutical facility management support

REPRESENTATIVE EXPERIENCE

SECTOR	SCOPE
Federal — Multi-Site Construction	48 simultaneous construction projects in remote and rural communities — full lifecycle PMO, project controls, and construction management
Federal — Program Development	National technical assistance IDIQ — procurement program standup, process design, Pacific territory operations
Fortune 500 — Pharmaceutical	Embedded staff, enterprise platform buildout, seismic survey program across 15 lab buildings (3,500+ instruments)
Fortune 500 — Biotech	Multi-site facility construction, clean room conversions, and facility management

WHAT SETS US APART

We Build the Tools, Not Just Use Them
We don't adopt off-the-shelf solutions — we engineer custom dashboards, automated reporting systems, and workflow tools purpose-built for your program. Business process engineering is core to how we deliver.

Boardroom to Jobsite, Anywhere
From Arctic villages to corporate headquarters, we deliver with equal precision. Worldwide reach with the responsiveness of a local partner.

$25B+ in Leadership Experience
Our leadership team has managed projects and programs totaling $25B+ across career — from single-site builds to enterprise-wide program portfolios. That depth is available directly on every engagement.
